To be completed by parents upon student enrollment to determine student's status as language minority.

1. What is the native language of the student?

2. What is the predominant language of the student?

3. What language is most often spoken by the student at home?

The purpose of this form is to identify students in need of English language development services. Based on the results of this survey, students will be tested for their level of English proficiency and provided services as needed. If a language other than English is indicated for any of the questions, the student is considered to be a language minority student. Once this determination has been made, the following must occur:

- English proficiency assessment, upon enrollment and annually thereafter, to assess level (1-5) of English proficiency and measure growth annually.

Ethnicity and Race:

(Note: Both Part 1 and Part 2 of the question must be answered.)

Part 1: Is this individual Hispanic/Latino? *(Choose only one)*

Ethnicity

No, not Hispanic/Latino

Yes, Hispanic/Latino (A person of Cuban, Mexican, Puerto Rican, Cuban, South or Central American, or other Spanish culture or origin, regardless of race.)

Part 2: What is the individual's race? *(Choose one or more)*

Race

American Indian or Alaska Native: A person having origins in any of the original peoples of North America and maintaining cultural identification through tribal affiliation or community recognition.

Asian: A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

Black or African American: A person having origins in any of the black racial groups of Africa.

Native Hawaiian or Other Pacific Islander: A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

White: A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.

The federal government has developed these new categories in order to provide a more accurate picture of the nation's ethnic and racial diversity. This will enable individuals to be identified in ethnic and racial classifications and in more than one racial category. In the past, forms allowed individuals to be identified in only one racial category.

The new ethnicity and race categories data will be used in the same manner as such information is currently used. For example, the federal government uses race and ethnic data in reporting and analyzing test results, such as ISTEP+ and the End of Course Assessments. These new categories will replace all existing categories for use in state and federal data collections.

Information regarding the collection of race and ethnic data is available on the U.S. Department of Education website: <http://www.ed.gov/policy/rschstat/guid/raceethnicity/index.html>.
